StarWORKS Global recently a cutting-edge solution to enhance the dining experience for its patrons through the implementation of the StarCARD system at Alfresco 21. This innovative approach not only simplifies transactions but also adds a layer of convenience for customers.

## **How StarCARD Works?**

The StarCARD is a smart card that acts as a digital wallet, allowing customers to load funds onto the card at the Top-Up Counter. This eliminates the need for physical cash transactions, streamlining the process and reducing waiting times for both customers and staff.

Once topped up, customers can use the StarCARD to make purchases at Alfresco 21 without the hassle of handling cash or credit cards. This not only enhances the efficiency of transactions but also provides a secure payment method for customers.

### **Dining Made Easy**

In addition to the convenience of the StarCARD system, patrons can enjoy a diverse selection of foods and beverages at Alfresco 21. From local delicacies to international cuisine, there is something to satisfy every palate!

The implementation of the StarCARD system at Alfresco 21 demonstrates StarWORKS Global's commitment to embracing technology to improve customer experience. It is a step towards a more efficient and seamless dining experience, setting a new standard for hospitality in Bali.
