The 2nd business anniversary celebration of Rosalita's Cantina Bali on November 22nd, 2024, last week was a success and will be remembered not only as a time for many to come together and have fun but also as an initiative that serves as a real proof of how blockchain-powered membership clubs can be integrated into a hospitality experience seamlessly. The newest product in our ecosystem, SHC Membership Club, is at the heart of this event and empowers the business anniversary celebration to give people a taste of the future of hospitality.

What is Rosalita's Cantina Bali?

Rosalita's Cantina Bali is a fun and festive Tex-Mex restaurant and bar located in the heart of Seminyak, in Seminyak Square, Bali, that was built in 2022. Since the establishment of the restaurant, Rosalita's Cantina has been part of the StarWORKS Global growth journey as it is part of our StarPOINTS rewards program as one of the merchants, and now recently it has also become one of the venues within the SHC Membership Club.

How does our SHC Membership Club empower Rosalita's business anniversary?

SHC Membership Club by StarHOSPITALITY is the newest product within the StarWORKS ecosystem. Through this innovative blockchain-powered membership club, signed members can get various hospitality experience benefits such as cashback, discounts on food and beverages, exclusive services, and merchandise, as well as a monthly income if members hold a specific amount of SHC tokens (SHC Membership Club currency) for a specific period of time. It doesn't end there since the benefits are more than just the surrounding hospitality experience.

Members of the membership club can also trade the SHC token on decentralized exchanges or transfer it over the counter through the SHC Membership Club app.

With many venues across the island of Bali, including Rosalita's Cantina, the SHC Membership Club was powering the restaurant's business anniversary by giving away free STARXP points for new members. As the StarPOINTS rewards program and SHC Membership Club are connected, members will get rewards, cashback, and passive income in the form of STARXP (StarPOINTS' currency). These points can be used and redeemed at various venues within the SHC membership club and StarPOINTS' business merchants, including Rosalita's Cantina Bali. During the event, many also redeemed the points for the menu at the restaurant. Imagine savoring your favorite dishes while enjoying the perks of being part of an exclusive membership club designed to enhance every hospitality experience.

What makes the SHC Membership Club stand out?

It's more than just a membership club—it's a revolutionary approach to hospitality. Members enjoy a carefully curated selection of benefits, including exclusive deals, early access to events, and personalized experiences. The club is also designed with various tiers to make every dining, nightlife, or entertainment outing truly memorable for each member. For Rosalita's Cantina Bali's 2nd business anniversary, SHC is bringing this vision to life, turning an already incredible celebration into an unforgettable experience.

What can you expect from the SHC Membership Club next?
